FATAL EXPLOSION.

Six Lives Lost in a Powder Mill Explosion This Morning.

Was Working on Large Orders of Smokeless Powder for the Government.

Scripture-McRae Service.
Pompton Lake, N. J., July 12.—The Loflin-Rand Powder works blew up this morning, and it is reported that at least six lives were lost. It is feared that the entire plant will be destroyed by fire. The factory has been working on large orders for smokeless powder for the government. The property loss will be very heavy.

RETURNING TO SPAIN.

London, July 12.—Before Admiral Camara was permitted by the Egyptian government to coal the battleship Pelayo from his transport San Augustino he was compelled to furnish a written guarantee that the entire squadron is returning to Spain direct. Nearly all the vessels of the fleet have already left Port Said for Spain.

NO TERMS

Have Yet Been Made to Spain by the United States.

Washington, July 12.—There is no foundation for the report from Madrid that the United States has made demands upon Spain as to conditions of peace, contemplating the cession of Cuba and Porto Rico, with a port in the Canaries, the payment of an indemnity of \$48,000,000 and the retention of the Philippines as a guarantee of the payment of the indemnity.

THE SITUATION AT HAVANA GOES FROM BAD TO WORSE.

The Condition of the People There Is Daily Growing More Desperate—Blanco May Be Losing Heart.

QUEEN OF SPAIN AND PEACE PROSPECTS.

But She Won't Agree to Anything But the Independence of Cuba Just at This Time, Yet It Is Evident That She Will Later.

HAVANA PAPERS STILL LYING ABOUT THE SITUATION.

Scripture-McRae Service.
KEY WEST, July 12.—From Havana comes the recital of the ravages of war sustained by soldiers and civilians of the beleaguered city, and the awful and desperate conditions that surround them and daily growing more desperate.

The spirit of desperation seems to pervade even the high military authorities and volunteers are openly favored by them at the expense of the Spanish regulars, which may cause trouble with the troops.

The Havana papers of July 6, contained full, long, glowing accounts of the defeat of the American squadron at Santiago and a great victory by the land forces under General Linares at the same place. The papers also declare that after Admiral Cervera captured or sunk the American fleet, and disposed of prisoners and prizes, he put to sea for Havana, and will engage and capture or sink the blockading squadron and lift the blockade.

General Blanco has recently been sharing his authority with the autonomist leaders, which is generally looked upon by the people of the city as conclusive evidence that he has lost heart at last and seeks to divide the responsibility of impending defeat.

THE QUEEN WILLING TO TALK ABOUT PEACE.

Scripture-McRae Service.
LONDON, July 12.—The Standard has a Berlin dispatch which says it is learned the Queen Regent of Spain is willing to negotiate for peace directly with the United States. But that the maximum concession that the Queen is willing to make at present is the absolute independence of Cuba.

DENMARK MAY MAKE TROUBLE.

Her Government May Attempt to Prevent the United States Using Her Own Coal at St. Thomas.

Scripture-McRae Service.
NEW YORK, July 12.—A Journal dispatch from St. Thomas says: Denmark's pro-Spanish sympathy is showing itself to be growing in strength every day. The latest developments along this line are that the Danish government, through her minister here, has put forth a mighty effort to prevent the ships of the United States using eight thousand tons of coal which belong to the United States government at this port, and if the Danes persist in the effort there will likely be serious trouble result from it. Governor Lederman has openly declared that if the United States attempts to remove the coal by force or otherwise except by his consent her ships would be fired upon by all the German, French and Italian warships in the harbor.

This declaration of the Danish governor has created the most intense excitement among the people of this city, and has succeeded in arousing the populace, which is strongly American in sympathy.

HAS TORAL ESCAPED?

It Is Rumored That the Spaniards Have Marched Out of Santiago.

And Have Left a Desolate and Devastated City for the Americans—Has Shafter Been Hoodwinked?

Washington, July 12.—It seems Gen. Shafter's indulgence to the Spanish commander in so long extending the time for negotiations has been rewarded by a characteristic bit of Spanish craftiness. According to the latest news from the front, Gen. Shafter believes that Gen. Toral has slipped out of Santiago to the westward with all his men and arms, leaving a sacked and deserted city as the only trophy of the American army.

Gen. Toral's course in encouraging non-combatants to seek shelter in the American lines, the fact that Spanish soldiers have been pillaging the city, the evacuation of Aguadores by the Spaniards, leaving dummy guns in their entrenchments, the feebleness of the Spanish reply to the bombardment Sunday afternoon—these and other things tend to confirm the reports that the Spanish general, while asking time to negotiate for surrender, has been withdrawing his troops to the westward.

OFF FOR MANILA.

San Francisco, July 12.—Two more transports with troops for Manila will leave this city this week, probably on Thursday. Maj. Gen. Otis and staff will be with this expedition. Gen. Otis will stop at Honolulu and formally take possession in the name of the United States.

AT CHICKAMAUGA.

First Army Corps Will Probably Get Away This Week, Rushing Supplies.

Everything Almost Ready for a Long March and Hard Work. May Move Before Long.

Chickamauga National Military Park, Ga., July 11.—The great army at Camp Thomas is now being equipped with all possible haste and the supplies are reaching camp by the car load. Heretofore it has been the policy of the department to ship the ordnance and quartermaster stores to Camp Thomas by freight, but now the equipment is being sent here by express.

During the last twenty-four hours, Capt. Zalinski, quartermaster, who has in charge the disbursing of all clothing and equipment supplies at Camp Thomas, received six car loads of supplies by express, while fourteen car loads (the latter by freight) have reached camp. This equipment is being issued to the various commands almost upon its arrival. One day the two great store houses under Capt. Zalinski's care are filled with supplies, while the next the buildings are empty. Today the houses are taxed to their utmost with all kinds of supplies, which are constantly arriving from Philadelphia, St. Louis, Chicago, Boston and Jeffersonville, Ind. The amount of underclothing recently received is simply enormous, sufficient to supply an army of 100,000.

Among the supplies now being issued are 10,000 pairs of shoes, 5,000 blouses, 6,000 blankets, and 20,000 trimmings for uniforms, including the stripes, etc. The First corps as well as the Third is well fitted with shelter tents. It appears that quite a good deal of the clothing at first issued to the men was of an inferior grade, and on this account a second issue is being received by many of the soldiers at Camp Thomas. An official who is in a position to know states that the entire First corps was well equipped as far as quartermaster's supplies are concerned, while the ordnance department is rapidly fitting out the command.

Major Nye, commissary of subsistence of the Chattanooga army supply depot, has received an official notification from the commissary general, stating that 360,000 travel rations, enough to last 3,500 men for about 100 days, had been purchased and would be shipped to the local depot at once. The rations will begin to arrive tomorrow and will continue coming in all the week. These travel rations consist for the most part of canned corned beef, canned salmon, salt and hard tack, and will be sent out with every body of troops that leaves the park for the front.

There is an impression among the officers at Camp Thomas that there will be a heavy movement of troops during the coming week. The First Ohio cavalry leaves tomorrow morning, its preparations for departure being complete. It is said that the entire First army corps will get away before the end of the week. The Second brigade, first division, First corps, may get away tomorrow or Wednesday. The departure of this brigade depends upon the ability of the officials to get transports to Charleston, S. C.

Pursuant to orders from the war department, three wagon trains of twenty-seven wagons each and 324 mules are being loaded for shipment to Charleston, whence they go to Santiago. The special train bearing the mules and wagons will get away tonight.

The officers of each regiment have their hands full today giving attention to privates who slipped the guard lines during the last few days. The guardhouses are full and some disposition must be made of the offenders at once. The punishment is generally a heavy fine and police duty, but in some cases the men are dishonorably discharged.

NO FEAR AT KEY WEST.

Scripture-McRae Service.
Key West, July 12.—No yellow is here, and none is apprehended.

SHAFTER'S ARMY.

About 23,000 Available Fighters At Santiago, And Nearly 4,000 En Route.

Washington, July 12.—Gen. Shafter's available force, after counting all reinforcements, and deducting the dead, sick and wounded, is 22,850 fighting men, according to military estimates. This is based on an estimate of 16,000 men in Gen. Shafter's original expedition, and about 10,000 in various expeditions which have gone since then, making in all 26,000 men. Against this, however must be deducted the casualties in the fighting thus far, and also the men confined to the hospital by sickness. The deduction is roughly estimated at 3,000, leaving about 23,000 men available today as the fighting force of the American army. The reinforcements have gone forward from time to time, and it has been hard to keep track of them, but they are summed up as follows: Gen. Duffields brigade, 2,500 men; recruits for the regular army, 950; First Illinois, 950; First District of Columbia 850; six light batteries United States Artillery, 700; Gen. Garrettsen's brigade, Eighth Ohio, 1,300; Sixth Massachusetts and Sixth Illinois, 2,600. Another force 2,500 men, comprising Gen. Ernst's brigade, is ready to start and with this force Gen. Shafter's fighting strength will be swelled to about 25,000 men by the middle of this week.

Lee Richardson the premier fancy rider will give his wonderful exhibitions each night and as he has never appeared in the South he must necessarily make a great hit. Young Richardson is the son of a wealthy Chicago cycle manufacturer and rides for pleasure alone.

AFTER PIRATES.

Two British Warships Will Hunt Down Spanish Privateers.

Which Are Said to Be Lying in Wait for Returning Klondikers.

Scripture-McRae Service.
Victoria, B. C., July 12.—Two British warships, the cruiser Amphion and the sloop Iconus, have hurried out to sea. It is reported that they will hunt down Spanish privateers that are said to be lying in wait for returning Klondikers.

WERE ALL BOGUS.

The Alleged Interviews With Admiral Cervera at Portmouth, Recently

Scripture-McRae Service.
Portsmouth, N. H., July 12.—The auxiliary cruiser St. Louis, which brought the Spanish prisoners here is coaling for her return south.

Captain Goodrich says that no one has interviewed Admiral Cervera here and that all the alleged interviews with him are bogus.

JULY 14, 3 P. M.

Is the Hour for the Closing of Bond Proposals.

Scripture-McRae Service.
Washington, July 12.—The treasury officials have decided that all bids for war bonds to be considered must be in Secretary Gage's office Saturday, 3 p. m. July 14.

CAN BE TAKEN EASILY.

Scripture-McRae Service.
New York, July 12.—The British steamer H. M. Pollock arrived this morning from Porto Rico. Her passengers say that the people on that island are waiting anxiously for American invasion, and that it will not require much fighting to occupy the island.

ANOTHER PRIZE.

Scripture-McRae Service.
Key West, July 12.—An auxiliary cruiser towed into port today a Spanish prize schooner, a British vessel.

RIOTS IN PORTO RICO.

St. Thomas, July 12.—Reports from Porto Rico tell of terrible rioting. The disorders are principally among the volunteers. The whole country is terrorized. In the interior murder, robbery and assault are rampant. The governor has disarmed the negro macheteros. Several executions have taken place, but the serious conditions still exist. The outbreaks threaten to become revolutionary unless put down in a short time.

PATRIOTISM IN GEORGIA.

(Atlanta Journal)
The city is glorious with the flags of the Union. They fly over manufacturing, business houses, offices buildings and private residences. Atlanta is wrapped in the Stars and Stripes.
For weeks past flag raisings have been frequent in this city, and during the last two or three days flags have been going up in every direction so fast that it has been impossible to keep count of them.
This demonstration of devotion to the government and love for its flag has come spontaneously from the hearts of our people. The beauty and music of Union sentiment pervade the community, filling the hearts of old and young alike.

THE EVENING NEWSPAPER.

The Boston (Mass.) Transcript presents the following argument in favor of the evening newspaper as an advertising medium:—

"The value of the evening newspaper is not exhausted when it has given the news of the hour, or has helped the business men over the tedium of travel from his office to his home. Copies are seldom found littering the seats of steam or electric cars, as it is taken to the household for perusal by the whole family. Of course, the evening is the time when it can be most thoroughly read and discussed. Moreover, so rapid has become every medium of intelligence from world's end to world's end, that the evening paper is more favorably circumstanced than its morning contemporaries for keeping pace with the genuine news of each day. The facilities for extracting the bestessence of the world's history for the day, and the world's thought upon passing events, have been brought to such a high state of development that it is enabled to keep even pace with daily events, furnishing a brief resume of such morning news as may have been expanded by other sheets beyond real value and keeping the record clear and unbroken."

JUDGE TULLY ILL.

County Judge Tully is again ill. He was seized this morning by sudden illness and had to be carried home in a carriage. This afternoon he was unable to be at his office.

ANOTHER FLAG OF TRUCE IS FLYING AT SANTIAGO.

Spaniards Again Considering the Proposition of Surrendering the City, Which Is Completely Surrounded.

GREAT SUFFERING AMONG THE REFUGEES.

Terrible Slaughter and Devastation Wrought by the American Shells—Many of the City's Finest Buildings Were Destroyed.

GENERAL MILES HAS ASSUMED CHARGE AT SANTIAGO.

Scripture-McRae Service.
WASHINGTON, July 12.—The following telegram was received from General Shafter this morning:

"PLAYA DEL ESTE, July 11.—Adjutant General, Washington:—It has been very quiet here today, with but little fighting."

"The flag of truce has been up since 2 p. m. today, and the Spaniards are considering a proposition for surrendering the city, now that we have the town surrounded on the north line."

"Three or four casualties occurred yesterday, but only one man was killed so far as is known."

"I expect to have the new batteries in position tomorrow."

"There is a great deal of suffering among the people who have gone from Santiago, and we are doing our best to relieve them, but have not been entirely successful."
(Signed) SHAFTER."

DESTRUCTION OF SANTIAGO—MILES IN CHARGE.

Scripture-McRae Service.
PLAYA DEL ESTE, July 12.—The havoc wrought by the American shells in Santiago yesterday was terrible. Notwithstanding most of the shells from the ships fell short, enough were dropped into the doomed city by the ships and army to illustrate the horrible brutalities of war.

Many of the finest buildings in Santiago are now but masses of ruins. Indeed, the slaughter of innocent people and starving soldiers, and the devastation to property were so sickening that General Shafter again begged the Spanish military governor to surrender before the city was entirely destroyed.

General Miles has arrived and assumed command of the American forces today, though General Shafter will remain in command of the operations about Santiago on land.
(Signed) E. S. WRIGHT.

OFF FOR PORTO RICO SOON.

Scripture-McRae Service.
WASHINGTON, July 12.—The indications are the government intends to start an expedition to Porto Rico soon. A large number of transports is being collected at Tampa and it is stated that the intention of the government is to start troops to Porto Rico just as soon as Santiago falls.

WHAT MADRID BELIEVES.

Scripture-McRae Service.
MADRID, July 12.—The consensus of opinion here among people and officials is that the Cuban army of volunteers is the chief obstacle to peace. Though only half fed they are determined to fight to the last, and it is believed if they would give up the Americans would relinquish the struggle.

SNAKE EMBALMED.

The Peculiar Find of a Man Out in Marshall County Recently.

Fifty Pounds of Money and a Snake Discovered in a Tree.

Mr. Robt. Reeves, a young man who lives about a mile from Oak Level, Marshall county, was in the city this morning, and reported a most peculiar find.

A day or two ago he felled a mammoth bee tree, which had been used as a rendezvous for the busy little insects for several years. He proceeded to get the honey, and after about fifty pounds had been removed, he found in the center of a comb, a perfectly preserved chicken snake which had been well embalmed.

There was nothing about it to denote the length of time it had been in its strange and unusual tomb, nor is it known how it managed to get trapped in the hollow of the big tree.

SUPPLY OF STAMPS.

Deputy Collector W. J. White has received a supply of proprietary stamps for the druggists' trade, and this morning sold several thousand of them. He has them in all denominations.

No-To-Bac for Fifty cents. Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c. All druggists.

Wiping Out Spanish Atrocities

Quickly as possible—that is what Uncle Sam will do now in Cuba. For a good, quick and invigorating bath there is nothing like a good big sponge. We have everything in summer toilet goods—sponges, combs, brushes, sea salt, tooth and face powders, toilet waters, perfumes, soaps and rubber goods, that you will also need on your vacation.

TAESDAY, JULY 12, 1898.

OVER two thousand tons of provisions are now on the sea en route to Santiago to be distributed among the starving reconcentrados.

THAT news item about Germany's prospective interference in the Philippines doesn't circulate as freely as it did before Cervera made his little dash out of Santiago harbor.

It must dazzle our own Charley Wheeler to see how Uncle Sam continues to pick up choice bits of real estate in the Pacific Ocean, and that too, right in the face of Charley's vote against "imperialism."

THERE are streets in Paducah, not dug up by the sewerage work, that are as bad almost as they can be, and still be at all passable. Not for years have Paducah's streets been in as bad condition in certain localities as they are today.

COL. W. J. BRYAN's regiment will help annex Porto Rico, and we will venture the assertion that he don't make any speeches on the evils of territorial expansion until the war is over and that then he will wish he had not made his Omaha speech.

It is understood that Contractor White has at last been notified that the streets of Paducah, which were torn up in laying the sewerage system must be repaired. It is to be hoped the Mayor will be firm in his demand, for the condition of Third and other

streets is not only disgraceful, but positively dangerous.

In telling his little reminiscences at Yeiser park last night of the thrilling scenes in the session of Congress just closed, Congressman Wheeler did not tell the thrilling story of how he voted against raising a dollar of revenue with which to carry on the war. That story would have been a little out of place at a benefit entertainment for our soldier boys.

GREATER honors as well as greater responsibilities await General Shafter upon the fall of Santiago. He will be the first military governor of Eastern Cuba. To him will fall the responsibility of restoring peace and security to a devastated and terrorized country. The refugees will be invited back to Santiago; the resumption of business will be hastened; the harbor will be cleared, and steamship traffic will be resumed; the reconcentrados will be permitted to return to their farms, and the remaining Spanish forces in Eastern Cuba will be either captured or driven to Havana. Shafter's splendid management of the campaign against Santiago, and his brilliant past record prove that no better man could have been selected for the first military governor of Eastern Cuba than General Shafter.

SENATOR WILLIAM GOEBEL, of Covington, according to his political managers, has his race for the Democratic nomination for Governor as good as won. Last week, when the Appellate Judicial convention assembled at Lebanon, there was a great gathering of candidates for state offices and of nearly all the politicians of any prominence. Senator Goebel, however, was the only gubernatorial candidate on the ground, and he and his friends made good use of the occasion. In fact, no one doubts now but that the author of the infamous Goebel Election Law will be the Democratic nominee for Governor, and will expect to be the beneficiary of his own iniquitous legislation.

As the Goebel Law will be an important issue in the next state campaign, it will be fitting that its author and impersonator be the head of the Democratic ticket. Let the ticket be Goebelman from head to foot.

THREE HEROES.

Considerable space is devoted by the press to the alleged difference between Sampson and Schley as to whom belongs the credit for the success of the naval battle at Santiago in which the fleet of Cervera was annihilated. But the subject is in reality one of minor importance. The country knows full well who deserves the credit for the great victory, and moreover the President knows it also. He will give his decision, so it is authoritatively said, by raising both the old warriors to the rank of rear admiral, and as usual the President shows his good judgment.

Sampson was the superior officer. Events showed that he had done his full duty, from the fact that the American fleet was so well placed that Cervera ran right into the jaws of destruction when he attempted to escape.

As fortune would have it, Schley had the management of the battle and how well he did his work the annihilation of the Spanish fleet bears witness.

If the two heroes have had any war of words, it shows that they are but human, but it detracts not one whit from the brilliancy of their deeds, or the genuineness of their patriotism and courage. The people will honor both, and the President will see to it that the wishes of the nation are fulfilled to the letter. Give us more Sampsons and more Schleys!

And while we honor them, we must not forget Capt. Clarke and his splendid sea fighter the Oregon. It was the magnificent work of the officers and men on that noble ship that made the victory absolutely complete, and great credit is due to them.

Hurrah for Sampson, Schley and Clarke!

Real National Air of the South.

[Washington Post.] "It is a strange thing to me," said an ex-confederate soldier, "that so few people know what the real national air of the South is. Most everybody in the North looks upon that lively little tune, best known as 'Dixie,' as the Southern national air. But it is a fact that it was written by a Northern man, both words and music, as 'Way Down South in Dixie' might easily indicate. The national air of the South is 'The Mocking Bird,' and it was so adopted by a Confederate congress."

SENSATIONAL SERMON.

Princeton, Ky., July 12.—The talk of the town is the sensational sermon preached at Union services Monday night by Rev. J. L. Hill, of the Cumberland Presbyterian church. He denounced all creeds, the confession of faith of his church and denominationalism, and made a plea for a union of all the churches.

Dr. Edwards, Ear, Eye, Nose and Throat Specialist, Paducah, Ky.

SOCIETY NOTES.

CONSPIRATOR—A CAP!

The golling cap that Dolly wears Hath not a trace of trimmings fancy, But brave indeed is he who dares Investigate its necromancy; For all mysterious charms allure And take you captive unawares; There's sorcery about it, I'm sure, The golling cap that Dolly wears.

There's not a flower, ribbon, plume, Or ought of milliners' creation, No bird to deck it with its doom, And stuffed, upon it takes its station; It's plain as plain can be, and yet There hidden lie most subtle snares When on a mass of curls is set The golling cap that Dolly wears.

Long had I laughed at Cupid's sport, And dodged his skillful archery, But straightway I was brought to court When Dolly set her cap for me; And Cupe, the rascal, danced for joy To see he'd trapped me unawares, Ah! betty—pray, bless the boy!— The golling cap that Dolly wears.

—RAY FARRELL GREENE.

SOCIETY. Society has at last fallen into its natural mid-summer state, only relieved by a few dancing, swimming and wheeling parties that make up the stagger at gayety. The numerous card clubs have discussed almost every subject under the sun during the past season, and with delight the blessed summer time as a happy relief from these perplexing theories.

On Wednesday evening of this week a dance will be given by the young men that will throw a little sunlight on the gloom.

The procession of brides this season will be a short one in comparison with the joyous summer season of '97 turned out, and the list of bachelors will not be materially affected.

Last evening at Yeiser park the Daughters of the American Revolution, the Woman's Christian Temperance Union, and the different denominations, gave a most delightful lawn festival that was well patronized by the people.

MUNYON'S GREAT WORK.

Successful Effort in His Philanthropic Struggle Against the Human Method.

Munyon declares that the human method of curing disease is a failure. He should be to nature only a delicate vehicle of recovery. The hard work of recovery is done by nature itself. The human body is more delicate than the finest mechanism, more sensitive than the tenderest plant. To shatter the liver with mercury, to madden the nerves with morphia and chloral and to flay and burn the stomach with every poison blacklisted with skull and crossbones is to torture more deviously than the Inquisition.

Munyon guarantees that his Rheumatism Cure will cure nearly all cases of rheumatism in a few hours; that his Dyspepsia Cure will cure all cases of indigestion and all stomach troubles; that his Kidney Cure will cure 90 per cent. of all cases of kidney trouble; that his Catarrh Cure will cure catarrh, no matter how long standing; that his Headache Cure will cure any kind of headache in five minutes; that his Cold Cure will quickly break up any form of cold, and so on through the entire list of his remedies.

Guide to Health and medical advice absolutely free. Prof. Munyon, 1505 Arch St., Philadelphia.

Strangely enough, the difference between the ladies of that early period and of today seems to have been less in social matters than between those of the court of Queen Elizabeth and today. An Egyptian lady of quality had a suite of at least three rooms for her own use—one a boudoir or reception room, a second a bath or dressing room, and a third a dressing room. She had a dressing maid, an assistant maid or fan bearer, a bath maid, a seamstress and a manicure. The manicure seems to have been a chiropodist as well, because the belles of that period used sandals and bare feet, and not only bestowed the greatest care upon the nails of the toe, but in many cases put rings on the toes and magnificent anklets around the ankles. They took the same care of their hands and nails as the women of today, and for ornament employed rings, thumb rings, bracelets and armlets.

The hair was dressed in many conventional forms, and the hair pins were quite costly. The cheapest were made of bronze or brass, and the most costly of gold and silver. Many of these were stick pins, with ornamental heads, the latter being made of precious metals, of enamel, carving, of precious stones and semi-precious stones, such as cat's-eye, firestone, carnelian and coral. On the dressing table of the Egyptian ladies there was powder, rouge, polishing powder, for the nails and teeth, antimony, for darkening the eyebrows, another preparation for making the eyes lustrous, a scarlet paint or dye, for staining the lips, and many more accessories to the toilet as a modern belle.

Her bath room was the one joy of her life, and the height of luxury was obtained by an Egyptian princess in taking a bath as hot as she could possibly bear it while immersed to the neck in water, having her attendants fan her with great palm leaf fans. She loved flowers, and had jars full of choice blossoms in all of her rooms as well as pots of growing plants. In the animal kingdom she had many favorites, including song birds, parrots, owls, birds of brilliant plumage, monkeys, wild cats, ordinary tabbies, tenners and even tiger cubs.

A WONDERFUL CHRISTENING PRESENT.

History tells us of some very valuable and magnificent presents and gifts offered to children at their christening. A king's son received a whole rich province; another a dukedom, a town, a large well secured revenue, and an American millionaire is reported to have given his god-child, who was also his grandchild, a gold cup inclosing a check for \$200,000; but the most extraordinary and unique gift was one that received by the late King Sudroig of Bavaria. His father, the Margraf Max Joseph, was given by Louis XIV of France in 1777, the hereditary command and proprietorship of a renowned regiment named D'Alsace, and he resided at Strasbourg, where it was garrisoned. It 1785 he married Princess Marie of Hesse-Darmstadt to whom a son was born who became heir to the English throne of Bavaria and Zueibrocken. The event was hailed with great joy and enthusiasm in the realm of the future sovereign, and as Max Joseph was very popular and beloved by the soldiers of his regiment, they thought of a way to show how gladly they would sacrifice for him what they valued greatly. And so it came about that the most original present was offered at the baptism of the little prince.

L. B. OGILVIE & CO.

GREAT SUCCESS

Was the Patriotic Entertainment at Yeiser Park Last Night.

The Prize Fight Declared Off—National Reserve Association Pleads—Other Attractions.

The patriotic celebration given under the auspices of the Daughters of the Revolution, at Yeiser park last evening, was quite a successful and inspiring affair. The entire north side of the park was taken up by booths, from which refreshments were served, by the various churches of the city, each rivaling the other in beauty of arrangement and decoration. They were draped in patriotic colors, and hung with Japanese lanterns, and delicious ices and cake were dispensed from tables decorated with flowers of national color.

Just back of these booths was the speakers' stand from which Dean's band discoursed sweet music during the evening, many of the stirring national airs being among the selections.

The young ladies who waited on the tables were those of Paducah's prettiest, and were attired in costumes in which red, white and blue were introduced in conspicuous, but tasteful combination.

The whole color effect was dazzlingly beautiful, and the entertainment in every way desirable. Congressman Chas. K. Wheeler, introduced by Rev. E. E. Reed, was the speaker of evening and his enthusiastic remarks called forth much applause.

There was quite a large crowd present, and those having the affair in charge deserve congratulations for its success.

The picnic of the National Reserve Association at Ramona park last night was well attended and was most enjoyable.

The fight between Billy Layton and Jerome Smith that was to have taken place last night was declared off, as the crowd was so small that the management declared the mill off and refunded money to those who had bought tickets. The fight was to have occurred across the river, where a ring had been laid off for the purpose.

There was another large crowd at La Belle park last night to witness the performance of the newest and best troupe Manager Bostwick has yet offered to the public. The weather was somewhat chilly, but this did not deter the crowd.

A SINGULAR MAN.

One Person That Didn't Claim to Know How to Conduct the War.

"Dewey's victory was a glorious feat!" exclaimed the enthusiastic man. "It added unperishable glory to the American navy and to the American flag."

"Yes," replied the quiet man. "I tell you," the enthusiastic man went on, "it is success that wins."

"It is," replied the quiet man. "Still, Dewey was a trifle too impetuous, don't you think?"

"I don't know." "If he had lost the fight, instead of winning it, don't you think he would have been condemned for risking so much?"

"Quite likely." "But don't you think that his bravery bordered on rashness almost?"

"Really, I can't say." "Would you have acted as he did, under the circumstances?"

"I don't know." "I'm afraid I shouldn't. I'd have been a little more cautious, wouldn't you?"

"I don't know anything about it. You see, I am not a military or naval man, and have no knowledge of strategy."

"Haven't you any idea how this war ought to be conducted?" "Not the slightest."

"Well, you are the blindest man I've seen in a month of Sundays."—San Francisco Examiner.

TOO SMART.

Sparrows Were Too Sly to Enter Trap Set for Them.

As cunning strategists the sparrows that have made a portion of Vine street a terror to mankind can safely be matched against the world. Recently a well-known dealer on the west side of this thoroughfare, between Fifth and Longworth streets, thought he had solved the problem of how to do away with the little pests. His scheme was all right, provided the birds did their expected part, but, with the exasperation which only a sparrow can cause, they refused to do any such thing. The trick adopted by the dealer was the old one of trapping the little nuisances. A large wire cage had been especially constructed for them, and this was placed on one of the telegraph poles amidst the lower strand of wires upon which the sparrows were wont to take up their nightly roost. At either end of the cage were large trap doors which the dealer intended to suddenly close as soon as the pests had flown into it. When roosting time came there had congregated on the sidewalk a crowd of such proportions that traffic was considerably impeded. Everybody was gazing upward with gleeful smiles, and it was evident that most of the gazers anticipated a treat when the sparrows would walk into the trap. The birds soon began to gather in great numbers, but, strange to say, none of them would go near the innocent-looking cage. They simply hovered around for a moment to reconnoiter, and then flew to the higher strata of wires.—Cincinnati Courier.

Argument

Is not necessary to convince a thinking person that money is thrown away when invested in a typewriter that has not passed its experimental period. Years of hard, thoughtful effort and continual experimenting are necessary before reaching approximate perfection in a writing machine. Is it wisdom, then, for one to contribute to this cost of experiment?

Reputation Established

Years of experience, constantly increasing sales the world over—the natural result of typewriter excellence—is the unquestioned record of

THE SMITH PREMIER TYPEWRITER.

When you buy a Smith Premier you obtain a writing machine that is in advance of all others in points of improvement and durability. Do not pay for the costly experiments of others. The Smith Premier passed its experimental period years ago. It now stands the leader among writing machines. Descriptive catalogue free.

THE SMITH PREMIER TYPEWRITER CO.,

321 Pine Street, ST. LOUIS, MO. J. E. ENGLISH & CO., Local Agents.

A Challenge

To prove the superiority of the Excelsior bicycle and to demonstrate to the people of Paducah which is the best bicycle, we make the following challenge: We will put our string of riders against any other riders mounted on any other different make of wheel—the best preferred; open races, from one quarter to three miles, to be sanctioned by L. A. W., at any time, at any suitable place.

We claimed to have mounted on our wheels the majority of the best riders in Paducah. Afterwards we learned that others claimed the same honor. We will back our word, because we advertise what we believe to be the truth. We don't lie in the harbor like Cervera and claim to have the best boats and superior gunners; but, like Sampson, we are waiting for a battle. And when all is over you will have learned that those—are as inferior as Cervera's cruisers when compared with the Excelsior.

Will see you later and explain why you should ride an Excelsior. We are agents for the only wheel that bears the union label. All kinds of bicycles repaired.

Excelsior Bicycle Works

Third and Washington Streets.

Stars and Stripes

Will beautify many a wall on the Fourth, but for permanent decoration there is nothing to compare with the

WALL PAPER

We have in stock. Some are a delightful riot of color, but with order in the midst of confusion; others of conventional design, but very beautiful. Also a large line of window shades and picture moulding.

WANTED TO RENT

Part of a store on a main street for a professional man. Show window facing street preferred. Address Prof. G. H. Eason, Mayfield, Ky.

MAYOR WON THE MEDAL.

The Gun club held its regular shoot yesterday afternoon at La Belle park, and there was a good crowd present. Mayor Lang won the medal by a score of 22 out of 25, with Dr. Hansburo a close second, losing by one score. The mayor says he can always win with such easy victims to compete with. Mr. Saunders Fowler had been wearing the medal.

FOR RENT.

Cool, pleasantly situated furnished room. Only half block from best boarding house. Inquire at 313 North Sixth street.

A SMALL GARDEN.

The Illinois Central is placing sod in the small enclosure at Broadway between the sidewalk and the old freight office. It has been fenced off and will greatly improve the appearance of the locality. A car load of sod arrived this morning and was placed in the enclosure.

IS AT WORK.

James Hodge is at work in his field today. He is the man who had his skull fractured in a runaway near Florence Station two weeks ago, and which Dr. H. T. Rivers trepanned.

W. C. T. U.

The evangelistic of the W. C. T. U. will be held Wednesday afternoon at 4 o'clock in the lecture room of the First Christian church.

LOST—Between the Catholic church and the corner of Eighth and Clay, a gold necklace with bangles and B. V. M. medal attached. Finder will be rewarded by returning same to this office. 1212

CHILDREN'S DEATHS.

The ten-months old child of Mr. and Mrs. Charles Huff, of Livingston's Point, died yesterday of summer complaint. The remains were buried this afternoon.

Elle May, the three-months old child of Mr. and Mrs. McGrall, of 903 North Sixth, died yesterday afternoon. The remains were buried this afternoon at Oak Grove.

THE W. M. S.

The Woman's Missionary society of the First Baptist church will meet Wednesday afternoon at 3:30 o'clock, at the church. All members are requested to be present.

All the ladies of the church are requested to meet there at 4 o'clock to attend to business of importance connected with repairing our building. Mrs. E. B. Richardson, Secretary.

To Cure Constipation Forever. Take Cascarets Candy Cathartic. 10c or 25c. C. C. C. Co. fail to cure, druggists refund money.

CARS BURNED.

Another Bad Accident on the Illinois Central—No One Hurt.

Oil Tanks on the Evansville Division Burned—Cars Derailed.

A number of cars of freight train No. 391, south bound, on the Evansville division of the I. C. were derailed at Livingston Park, sixteen miles above Princeton, about 4 o'clock yesterday afternoon.

Two tanks of oil, two cars of flour and one of tobacco, were wrecked, and about 8 o'clock last night the tanks of oil exploded, or caught fire in some manner not clearly known, and all five of the cars, including the two containing the oil tanks, were burned.

The conflagration will cost the railroad a few thousand dollars, perhaps, as the whole thing is understood to be a complete loss.

It was reported here that the oil tanks exploded, but this could not be confirmed at the dispatchers office. The engineer in charge of the train was named Brown, and the cause of the derailment was not learned.

POLICE COURT.

Two Arthur Crawfords—Vagrancy and Crap Shooting Charges.

Other Business That Came Up Before Judge Sanders This Morning.

Arthur Crawford, colored, was charged with breaking into the house of Dicky Powers, on Seventh street, and stealing a trial. The case was not ready for trial and was continued until tomorrow.

Another Arthur Crawford, also colored, was charged with assaulting another boy on the wharf and splitting his lip. He said he didn't do it purposely but the evidence indicated otherwise. He was fined \$5 and costs.

Isaac Jacobs, alias "Chicken," and Lee King, colored, were charged with vagrancy and were sentenced to thirty days on the chain gang. A similar charge against John Greer, colored, was dismissed.

Porteous Boyd, Wm. Manuel and Homer Steadman, colored, were charged with crap shooting and were fined \$20 and costs each.

A breach of the peace case was dismissed against James Doyle. L. A. Baker, of Dresden, Tenn., charged with carrying concealed a deadly weapon, was fined \$25 and sentenced to ten days in jail. He was represented by Attorney Dennis Mocoquet, who asked and was granted an appeal.

STEAMBOAT SUNK.

Steamer J. W. Graves Goes Down at Cairo.

Last evening about 8:30 o'clock, the little steamer J. W. Graves sank at her moorings, a few yards south of old Ft. DuRoi, a short distance below the Halfway house says yesterday's Cairo Argus. The boat lies in nearly thirty-five feet of water, careening slightly to starboard, leaving only a portion of the pilot house and the stacks visible above the water.

The steamer has a steel hull and belongs to Capt. John Mackler, of Booneville, Mo., and came into port Saturday night after a towing trip south. She will likely be raised as soon as possible.

The extent of the damage or the cause of the sinking could not be determined last night. She was valued at \$10,000, which is not covered by insurance.

ATTRACTED ATTENTION.

The Dagos Were Out in Force Today on the Sewerage.

This morning early risers imagined that part of the Spanish army had struck town. The 101 dagos who arrived yesterday to begin work on the sewerage, were marched from the encampment near the Union depot, to Jefferson street, where they were put to work. During the day large crowds of pedestrians would collect to watch them, and comment on their untelligible communication. They seem to be good workers, and are experts in the business, having come all the way from New York, where they have worked on sewerage for some time.

When at work there is a string of them about two blocks long.

FOR CRAP SHOOTING.

Henry Minor was arrested this afternoon on a charge of crap shooting. He is only one out of many warranted for engaging in a crap game. He was locked up to await trial tomorrow.

PENSION AGENT HERE.

Mr. George M. Williamson, of Washington, the pension agent, is in the city stopping at the Palmer House.

SENT TO PRINCETON.

The mayor yesterday afternoon furnished K. R. Minks, who was without money, with transportation to Princeton.

Pittsburg, 5.4, falling.
Nashville, 1.8, falling.
St. Louis, 20.4, falling.
Paducah, 8.9, falling.

The Dick Fowler was out for Cairo this morning at 8:30 o'clock doing fair business.

The City of Clarksville cleared today at noon for Ohio river points as far as Elizabethtown. She was doing light freight business.

The John S. Hopkins was the Evansville mail liner today, although somewhat late in arriving and departing, owing to good business and thin water.

The towboat Dick Clyde leaves today for Tennessee river after a tow of ties.

The Lookout went up the Tennessee river this morning after a tow of rock for the government works at Livingston's Point.

The H. W. Buttorff is due out of the Cumberland river tomorrow morning from Clarksville and leaves on her return to Nashville at noon. She is now the only packet in that stream.

The river is about on a stand here today. It fell slightly all day yesterday, but become stationary last night.

At the foot of Jefferson street where the dry docks are located was about the only place where any activity was noticeable today, all the rest of the river front seemed deserted.

A large force of ship carpenters, caulkers and laborers are at work repairing the wharfbat that is on the dry docks. Work is rapidly progressing under the personal supervision of Supt. Young Taylor and they will have her in the river again in a few days.

The City of Sheffield is due out of the Tennessee river for St. Louis.

The river fell at Nashville last night 1-4 tenths, which puts the Cumberland river down very low. The upper Tennessee is also at its lowest ebb.

The towboat Peter Houtz is up the Tennessee river after a tow of lumber for Evansville parties.

The City of Paducah is due tomorrow morning from St. Louis en route up the Tennessee for Florence. The Mayflower leaves St. Louis today for Paducah. She turns back from here for the "Future Great."

The Bettie Owen takes an excursion to Smithland tonight. It is expected to be well patronized.

The repairs on the snagboat Woodruff are being pushed rapidly so as to have her completed for the early fall service. Double steel hulls have been placed under her and she has been wonderfully improved and increased in serviceable value at an expense of several thousand dollars.

She has been under the attention of steel workers and boat builders since early spring at Cincinnati and has almost been converted into another boat. She is now much more suitable for her work than she formerly was.

Capt. Amos Price took a saw mill boat up the Tennessee river this morning.

The Woodruff went up the Tennessee river yesterday to saw some lumber for the Kilgore heading factory.

The little harbor boat Mary N. passed down at noon with a big log raft for Metropolis.

The R. A. Speed has for a certainty gone into summer retirement this time. She has made several attempts to go to the bank on account of low water, but has on each occasion been called out on an emergency trip.

The little freshet that appeared so suddenly in all the rivers day before yesterday has likewise disappeared from all of them, and afforded no benefit to the steamboats whatever. The government report this morning showed the river to be falling at all the principal points with the exception of one. Low water will now no doubt prevail throughout the summer in all the streams until the fall rains set in. River men are still hopeful that a packet stage will remain, at least until the new grain crops can be gotten out.

REMEMBER
THE OLD RELIABLE
St. Bernard
Coal Co.

Have no strikes and no low water to contend with; consequently they are able to keep a fresh stock of coal on hand all the time, and as it is only handled one time they furnish you nice, clean coal, free from slack and dirt. And they sell as cheap as the cheapest. Pittsburgh coal and a full assortment of anthracite and coke always on hand. Our delivered prices, for cash only, are—

St. Bernard Lump, 8 Cents per Bushel
St. Bernard Nut, 7 Cents per Bushel

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

BASEBALL PARK.

Mr. E. C. Terrell Secures a Good Lease.

Master Commissioner J. Will Fisher yesterday afternoon sold to the highest bidder the lease on the Rowlandtown baseball park, with all the park properties.

The price paid was but \$180, and the lease is for four years. The property in the park is also very valuable, and it is understood that Mr. Terrell will retain control of the park and rent it out for picnics, dances and other such things. It is said that the four years' unexpired lease is alone worth \$500.

POPULAR CHAPLAIN.

At the services held for the Sixth Regiment last Sunday at Camp Alger Chaplain Dussault (Protestant) said in the course of his address:

"It is with pleasure that I announce to the men of our regiment especially to those who have been brought up in the great Catholic Church, that the Father Sherman, chaplain of the Fourth Missouri Regiment, has very kindly consented to come over here this afternoon at 4:30 o'clock to give us a service, and I am assured of this, that the Protestants of our regiment will most gladly turn out to hear this man, not simply on account of this distinguished father's service to this country, but also on his own account; and furthermore, I wish to say that Father Sherman has arranged to have a Mass every Sunday morning at 9 o'clock, thus avoiding the regular

hours of service in the other regiments, and I most heartily commend the Catholics of our regiment, if they can make it possible, to attend these services. I wish to assure every man of this—I respect his conviction."

Chaplain Dussault, needless to say, is very popular.—Standard and Times.

WHY BURN

Old Soggy Wood

When you can get dry hickory above wood ready for stove at same prices by telephoning No. 1987 Note change from No. 29.

E. E. BELL

MEN OF MODERATE MEANS

Need no longer regard tailor-made clothes with fear and trembling. Dalton now makes clothes in his own shop, here at home—makes the clothes right, makes the billright. It costs but a trifle more to wear garments that fit than those that a most fit. The acme of style and workmanship is ours. Drop in at 333 Broadway and see about that belated spring suit. You'll be glad you waited—it will cost you so little.

DALTON, THE TAILOR

Growing in popular favor every day...

Linnwood

And the only high-grade 5-cent cigar. Ask for it.

SCREEN + DOORS!

We still have a stock of those fancy screen doors, also seven-eighths and one-and-one-eighth-inch plain screen doors. The wire in these doors is not put on with tacks but securely fastened in grooves with a tongue or strip of wood. We are the only ones selling this class of screens in the city. Insist on having this kind; they are the best. Take no others so-called "just as good."
